

# REDUCING HEALTHCARE INEQUALITIES

The Core20PLUS5 approach is designed to support Integrated Care Systems to drive targeted action in healthcare inequalities improvement

**CORE20**  
The most deprived 20% of the national population as identified by the Index of Multiple Deprivation

**PLUS**  
ICS-chosen population groups experiencing poorer-than-average health access, experience and/or outcomes, who may not be captured within the Core20 alone and would benefit from a tailored healthcare approach e.g. inclusion health groups

Target population

Key clinical areas of health inequalities

**1 MATERNITY**  
ensuring continuity of care for 75% of women from BAME communities and from the most deprived groups
